The Company's Performance

STRATEGI DAN KEBIJAKAN STRATEGIS

[SEOJK 2.c.1.a]

Kami dengan bangga melaporkan bahwa strategi dan kebijakan strategis yang diambil Perusahaan berbuah manis berupa kinerja keuangan yang tumbuh signifikan dengan kondisi fundamental Perusahaan yang tetap solid pada tahun 2023. Raihan luar biasa ini terjadi di tengah pertumbuhan ekonomi Indonesia yang sedikit lebih rendah dibandingkan dengan tahun 2022 akibat perlambatan ekonomi global, inflasi yang tinggi serta kenaikan suku bunga.

Kendati dihadapkan pada berbagai tantangan tersebut, Perusahaan melihat banyak peluang untuk mendukung pertumbuhan kinerja yang berkelanjutan. Strategi utama Perusahaan pada tahun 2023 adalah fokus pada pengembangan produk dan layanan yang sesuai dengan kebutuhan pasar serta memperbanyak kemitraan strategis untuk mendukung ekspansi bisnis jangka panjang.

Perusahaan terus berinovasi untuk menciptakan produk dan layanan yang berkualitas dan kompetitif. Selain itu, penetrasi pasar juga semakin diperkuat dengan menargetkan segmen konsumen yang lebih luas dan belum dilirik oleh pengembang properti lainnya.

Kami memahami bahwa setelah pandemi Covid-19, kebutuhan akan properti hunian dan komersial yang menghadirkan konsep modern dan ramah lingkungan semakin meningkat. Hal ini berdasarkan hasil riset dari sejumlah lembaga riset properti ternama seperti JLL dalam riset terakhirnya Asia Pacific 2023, yang menyebutkan bahwa masyarakat kini lebih menginginkan hunian yang mendukung pola hidup sehat dan ramah lingkungan. Selain itu, tren gedung perkantoran pun mengarah ke konsep "bangunan hijau" (*green building*) yang semakin diminati korporasi karena mendukung mereka dalam menerapkan prinsip-prinsip keberlanjutan.

Saat ini, terdapat tujuh proyek *green building* milik Perusahaan yang telah tersertifikasi bangunan ramah lingkungan, yaitu Kawasan BSD Green Office Park Area, Sinar Mas Land Plaza Thamrin Tower 2 & 3, Sinar Mas Land Plaza BSD City, My Republic Plaza BSD City, Green Office Park 1 BSD City dan Green Office Park 9 BSD City, serta Nava Park.

STRATEGIC STRATEGY AND POLICY

We are pleased to report the Company's strategies and strategic policies have resulted in significant growth in financial performance with the Company's fundamentals remaining solid in 2023. This remarkable achievement occurred in the midst of Indonesia's slightly lower economic growth compared to 2022 due to the global economic slowdown, high inflation and rising interest rates.

Despite these challenges, the Company sees many opportunities to support sustainable performance growth. The Company's main strategy in 2023 is to focus on developing products and services that meet market needs and expanding strategic partnerships to support long-term business expansion.

The Company remains to innovate, creating quality and competitive products and services. In addition, market penetration is further strengthened by targeting a wider consumer segment that has not been glimpsed by other property developers.

We understand that post the Covid-19 pandemic, the need for residential and commercial properties that present modern and environmentally friendly concepts is increasing. This is based on the results of research from a number of well-known property research institutions such as JLL in its latest research Asia Pacific 2023, which states that people now want more housing that supports a healthy and environmentally friendly lifestyle. In addition, the trend of office buildings leads to the concept of "green building" that is increasing in demand by corporations due to its support in applying the principles of sustainability.

Currently, there are seven green building projects owned by the Company that have been certified as green buildings, namely BSD Green Office Park Area, Sinar Mas Land Plaza Thamrin Tower 2 & 3, Sinar Mas Land Plaza BSD City, My Republic Plaza BSD City, GOP 1 BSD City and GOP 9 BSD City and Nava Park.

Perpaduan konsep modern dan berkelanjutan telah menjadikan Kawasan Digital Hub BSD City sebagai pilihan sejumlah korporasi kelas dunia hingga *unicorn* di bidang teknologi. Hal ini semakin mengukuhkan posisi Perusahaan sebagai pengembang properti terkemuka di Indonesia yang inovatif dan adaptif terhadap tren terkini global.

Dari sisi peluncuran produk baru, sejumlah klaster berkonsep modern dan berkelanjutan juga diluncurkan Perusahaan sepanjang 2023, antara lain Klaster Layton yang mengusung tagline “A Home Without Boundaries” atau hunian yang menyatu dengan alam tanpa batas. Klaster ini terletak di kawasan Navapark, BSD City, yang merupakan kawasan hijau seluas 150 hektare.

Produk lain yang mengusung konsep modern dan keberlanjutan adalah klaster Terravia, Eonna dan Enchante di BSD City. Ketiga klaster ini menawarkan desain ramah lingkungan atau lokasi yang lebih hijau, atau keduanya yang dipadu dengan berbagai konsep unik.

Perusahaan turut membuka peluang investasi jangka panjang melalui kemitraan strategis. Perusahaan, melalui anak usahanya, menggandeng investor Jepang, Hankyu Hanshin Properties JOIN ID-DCP LLC untuk mengembangkan *Office Portfolio Partnership* di beberapa lokasi strategis di pusat kota Jakarta.

Selain itu, kerja sama dengan HeHa Group dijalin untuk pengembangan Taman Rekreasi HeHa BSD City, seiring dengan tingginya kebutuhan masyarakat akan sarana rekreasi. Keberadaan taman rekreasi ini turut menambah nilai tambah bagi kawasan BSD City yang selama ini telah dikenal sebagai pusat hiburan baru bagi masyarakat Jabodetabek dengan keberadaan Indonesia Convention Exhibition (ICE) BSD City yang menggelar banyak pameran dan konser berskala nasional dan internasional.

Peluncuran produk-produk baru dan kerja sama strategis ini menunjukkan komitmen Perusahaan untuk terus berinovasi dan memenuhi kebutuhan konsumen yang terus berubah. Perusahaan berharap produk-produk baru ini dapat diterima dengan baik oleh masyarakat dan memberikan nilai tambah bagi seluruh konsumen dan mitra kami.

Untuk mendukung penjualan produk-produk baru tersebut, Perusahaan meluncurkan program Sinar Mas Land Precious pada tahun 2023 yang memberikan berbagai keuntungan bagi pelanggan berupa diskon tambahan hingga 1,25% untuk semua produk, termasuk *new product launching* dan *product in stock*, yang meliputi tipe kavling, rumah, apartemen dan ruko. Selain itu, pelanggan juga berkesempatan untuk mendapatkan *referral fee* hingga 0,95%, *birthday greeting*, hingga tambahan puluhan ribu poin di aplikasi OneSmile.

Perusahaan juga menghadirkan program pemasaran nasional yakni Smart Move sepanjang tahun 2023 yang memberikan beragam diskon, subsidi *down payment*, subsidi bunga KPR dan kemudahan cara bayar bagi para konsumen setia kami. Program-program ini diharapkan memberikan kemudahan bagi para pembeli di tengah kenaikan suku bunga kredit pada semester kedua 2023.

The combination of modern and sustainable concepts has made BSD City Digital Hub the choice of a number of world-class corporations and technology unicorns. This further strengthens the Company's position as a leading property developer in Indonesia that is innovative and adaptive to the latest global trends.

In terms of new product launches, a number of clusters with a modern and sustainable concept were also launched by the Company throughout 2023, including Layton Cluster which carries the tagline “A Home Without Boundaries” or a residence that blends with nature without limits. This cluster is located in the Navapark area, BSD City, which is a 150-hectare green area.

Other products that carry the concept of modernity and sustainability are the Terravia, Eonna and Enchante clusters in BSD City. These three clusters offer eco-friendly designs or greener locations, or both, in combination with various unique concepts.

The Company also opens up long-term investment opportunities through strategic partnerships. The Company, through its subsidiary, is collaborating with Japanese investor Hankyu Hanshin Properties JOIN ID-DCP LLC to develop office portfolio partnerships in several strategic locations in downtown Jakarta.

In addition, cooperation with HeHa Group was established for the development of HeHa BSD City Recreation Park, in line with the high demand for recreational facilities. The existence of this recreational park also adds value to the BSD City area, which has been known as a new entertainment center for the Greater Jakarta community with the existence of the Indonesia Convention Exhibition (ICE) BSD City, which holds many national and international exhibitions and concerts.

The launch of new products and strategic partnerships demonstrates the Company's commitment to remain innovating and meet the shifting needs of consumers. The Company hopes that these new products will be well received by the public and provide added value to all our consumers and partners.

To support the sales of these new products, the Company launched the Sinar Mas Land Precious program in 2023, providing various benefits for customers in the form of additional discounts of up to 1.25% for all products, including new product launches and products in stock, which includes plot types, houses, apartments and shophouses. In addition, customers also have the opportunity to get a referral fee of up to 0.95%, birthday greeting and additional tens of thousands of points in the OneSmile application.

The Company also presents a national marketing program called Smart Move throughout 2023, which provides various reductions, down payment subsidies, mortgage interest subsidies, and easy payment methods for our loyal customers. These programs are expected to provide convenience for buyers in the midst of rising lending rates in the second half of 2023.

Berbagai strategi dan kebijakan strategis yang diambil pada tahun 2023 terbukti telah mampu mendorong pertumbuhan kinerja Perusahaan. Kami meyakini langkah-langkah yang Perusahaan ambil tidak hanya berbuah manis pada saat ini, tetapi juga akan menjaga pertumbuhan kinerja dalam jangka panjang.

Kedua, Direksi menerima masukan dari seluruh pemangku kepentingan, khususnya dari konsumen dan mitra strategis kami. Ketiga, evaluasi dilakukan secara berkala dengan mendengar masukan dari BOC.

Numerous strategies and strategic policies taken in 2023 have proven to be able to drive the Company's performance growth. We believe that the steps that the Company has taken will not only be fruitful at this time but will also maintain performance growth in the long run.

In planning the strategies, the Directors continually consider various factors, such as analysis of internal and external conditions, market opportunities and challenges, as well as corporate values. The Directors has ensured that the strategies formulated are in line with the Company's vision, mission and goal, which is to become the largest property developer in Indonesia. Dalam hal pemantauan dan evaluasi strategi, Direksi selalu berkomunikasi dan meminta masukan dari BOC untuk memastikan bahwa strategi yang dijalankan oleh Perusahaan tetap sesuai dengan tujuan jangka panjang untuk mempertahankan posisi sebagai pengembang properti terkemuka di Indonesia.

PENCAPAIAN PERUSAHAAN TAHUN 2023 **[SEOJK 2.c.1.d]**

Pertumbuhan ekonomi Indonesia di tahun 2023 memperlihatkan resiliensi di tengah tantangan global yang meningkat. Meskipun tumbuh lebih lambat dibandingkan tahun 2022, ekonomi Indonesia tetap tumbuh positif pada tahun 2023 dan diperkirakan berada dalam kisaran 4,5%-5,3%.

Menurut data BI, faktor-faktor pendorong pertumbuhan ekonomi masih berasal dari konsumsi rumah tangga, yang didorong oleh mobilitas yang meningkat serta ekspektasi pendapatan yang membaik. Pertumbuhan investasi secara keseluruhan meningkat menjadi 5,77% secara tahunan seiring dengan berlanjutnya pembangunan infrastruktur Pemerintah di berbagai wilayah Indonesia.

Pasar properti Indonesia pada tahun 2023 mengalami pertumbuhan yang positif, meskipun tidak setinggi tahun 2022. Menurut data BI, Indeks Harga Perumahan Residensial (IHPR) pada triwulan ketiga 2023 tumbuh 1,96% secara tahunan, lebih tinggi dari pertumbuhan pada triwulan sebelumnya sebesar 1,92%. Kenaikan IHPR terutama ditopang oleh kenaikan harga rumah tipe besar sebesar 1,70% secara tahunan, lebih tinggi dari kenaikan pada triwulan kedua 2023 sebesar 1,49%.

Dari sisi penjualan, hasil survei BI menunjukkan bahwa penjualan properti residensial di pasar primer pada triwulan ketiga 2023 belum pulih sepenuhnya. Penjualan properti residensial masih berkontraksi sebesar 6,59% secara tahunan pada triwulan ketiga 2023, meski membaik dari kontraksi 12,30% pada triwulan sebelumnya.

Penyebab utama penjualan properti residensial primer di Indonesia mengalami kontraksi adalah masalah perizinan/birokrasi, suku bunga kredit yang tinggi, insentif perpajakan yang baru dilanjutkan di akhir tahun sehingga menunda keputusan pembelian.

In implementing the strategy, the Directors have set several relevant performance indicators, both quantitative measures such as marketing sales revenue targets and qualitative measures such as customer satisfaction levels. The Directors also monitor and respond to the dynamics of national and global economic conditions, technological developments and also regulatory changes, particularly those regulations that affect property demand and sales.

Several things are done to respond quickly and appropriately to changes that occur, so that the strategies implemented remain relevant to current conditions. In terms of strategy monitoring and evaluation, the Directors constantly communicate and seek input from the BOC to ensure that the strategies implemented by the Company remain in line with the long-term goal of maintaining its position as a leading property developer in Indonesia.

PROCESSES CARRIED OUT BY THE DIRECTORS TO ENSURE STRATEGY IMPLEMENTATION

Indonesia's economic growth in 2023 showed resilience amidst increasing global challenges. Although it grows slower than in 2022, Indonesia's economy continued to grow positively in 2023 and is estimated to be in the range of 4.5%-5.3%.

According to BI's data, the driving factor of economic growth still comes from household consumption, which is driven by increased mobility as well as improved income expectations. Overall investment growth accelerated to 5.77% on an annualized basis as the Government continued its infrastructure development in various regions of Indonesia.

Indonesia's property market in 2023 experienced growth, although not as high as in 2022. According to BI data, the Residential Housing Price Index (IHPR) in the third quarter of 2023 grew 1.96% on an annualized basis, higher than the growth in the previous quarter of 1.92%. The increase in IHPR was mainly supported by the increase of price of large-type houses by 1.70% on an annualized basis, higher than the increase in the second quarter of 2023 of 1.49%.

In terms of sales, the BI survey results show that residential property sales in the primary market in the third quarter of 2023 have not fully recovered. Residential property sales still contracted by 6.59% on an annualized basis in the third quarter of 2023, although it improved from the 12.30% contraction in the previous quarter.

The main causes of contraction in primary residential property sales in Indonesia are licensing/bureaucratic issues, high lending rates, and tax incentives which only resumed at the end of the year, thereby delaying purchasing decisions.

Untuk menghadapi sejumlah tantangan tersebut, Perusahaan telah mengimplementasikan beberapa strategi, antara lain dengan menawarkan produk properti yang sesuai dengan kebutuhan dan daya beli masyarakat, meningkatkan kualitas produk dan layanan, serta melakukan promosi yang efektif.

Perusahaan berupaya mempertahankan momentum positif di tahun 2022 dengan telah menyiapkan sejumlah kebijakan strategis di tahun 2023. Pertama, Perusahaan memasarkan produk secara aktif, baik melalui sarana digital maupun non-digital, dengan berbagai promosi menarik dan skema pembayaran yang memudahkan konsumen. Kedua, Perusahaan terus fokus pada pengembangan infrastruktur, yang merupakan faktor penting bagi pertumbuhan perusahaan properti.

Terakhir, Perusahaan meluncurkan produk-produk baru dengan kisaran harga mulai dari Rp1 hingga Rp30 miliar per unit, mencakup rumah tapak untuk segmen menengah hingga premium, produk komersial seperti ruko, apartemen atau kondominium dan kavling lahan komersial, termasuk yang dijual kepada perusahaan patungan.

Dengan kebijakan-kebijakan strategis itu, Perusahaan menorehkan prestasi yang membanggakan dengan kinerja keuangan yang sangat positif sepanjang tahun 2023. Pendapatan Usaha perusahaan melonjak 12,74% menjadi Rp11,54 triliun. Laba bersih Perusahaan menjadi Rp1,95 triliun.

Pada tahun 2023, Perusahaan juga menargetkan prapenjualan sebesar Rp8,8 triliun dan hingga akhir tahun, target ini dilampaui oleh Perusahaan. Adapun, kontributor utama dari prapenjualan masih berasal dari segmen residensial sebesar 53%, sebesar 28% dari penjualan komersial dan lain-lain sebesar 20%.

Aset Perusahaan meningkat menjadi Rp66,83 triliun dengan kas yang kuat di Rp9,43 triliun. Ekuitas Perusahaan sebesar Rp41,20 triliun sehingga tetap memiliki ruang besar untuk pertumbuhan.

Kinerja keuangan yang luar biasa ini tidak lepas dari sejumlah faktor pendukung. Pertama, Perusahaan terbukti jeli dalam membaca pasar dan mengembangkan produk properti yang diminati publik. Perusahaan terus berinovasi untuk menciptakan hunian yang terjangkau, dilengkapi fasilitas lengkap dan berada di lokasi strategis. Kedua, Perusahaan juga berhasil mengendalikan beban operasional secara efisien, sehingga Laba Bersih tetap terjaga, termasuk di dalamnya adalah reduksi utang melalui tender offer pada situasi suku bunga tinggi.

Tak hanya berfokus pada kinerja keuangan, Perusahaan juga gencar menggarap sejumlah proyek besar di berbagai wilayah Indonesia. Di segmen residensial, perusahaan mengembangkan kompleks perumahan Hiera, Enchante, Eonna, Tanakayu, Terravia, The Ostara, Nava Park dan The Zora di kawasan BSD City. Proyek serupa juga digarap di Grand Wisata, Bekasi dengan

To face these challenges, the Company has implemented several strategies, including offering property products that fit the needs and purchasing power of the community, improving the quality of products and services, also conducting effective promotions.

The Company seeks to maintain positive momentum in 2022 by preparing a number of strategic policies in 2023. Firstly, the Company actively markets its products, both through digital and non-digital means, with various attractive promotions and payment schemes that make it easier for consumers. Secondly, the Company remains focused on infrastructure development, which is an important factor for the growth of property companies.

Lastly, the Company launched new products with a price range from IDR1 to IDR30 billion per unit, covering landed houses for the middle to premium segments, commercial products such as shophouses, apartments or condominiums and commercial land plots, including those sold to joint venture companies.

With these strategic policies, the Company made proud achievements with very positive financial performance throughout 2023. The Company's Revenues jumped by 12.74% to IDR11.54 trillion. The Company's Net Profit was IDR1.95 trillion.

In 2023, the Company also targeted marketing sales of IDR8.8 trillion and by the end of the year, this target was exceeded by the Company. Meanwhile, the main contributor of marketing sales still came from the residential segment at 53%, 28% from commercial sales and 20% from others.

The Company's Assets increased to IDR66.83 trillion with strong cash at IDR9.43 trillion. The Company's equity amounted to IDR41.20 trillion so there remains substantial room for growth.

This outstanding financial performance cannot be separated from a number of supporting factors. Firstly, the Company has proven to be astute in reading the market and developing property products that are in demand from the public. The Company continues to innovate to create affordable housing, equipped with complete facilities and located in strategic locations. Secondly, the Company has managed to control operating expenses efficiently, in order for the Net Profit to be maintained, including the reduction of debt through tender offers in high interest rate situations.

The Company is not only focusing on its financial performance but is also aggressively working on a number of large projects in various parts of Indonesia. In the residential segment, the Company developed Hiera, Enchante, Eonna, Tanakayu, Terravia, The Ostara, Nava Park and The Zora housing complexes in the BSD City area. Similar projects are underway in Grand Wisata,

Water Terrace, Z Living, New Westfield dan Tanamas. Di Kota Wisata, Cibubur, Perusahaan membangun Vermont dan Front Row Studio Loft.

Sementara di segmen komersial, Perusahaan mengembangkan Northridge Business Center, Latinos Business District, Campton Shophouse, Greenwich Business Park, The Loop, Delrey Business Townhouse, Enchante Business Park dan North Point Two di BSD City. Selain itu, Perusahaan juga tengah menyelesaikan proyek pembangunan tol Serpong – Balaraja Seksi 1B yang menghubungkan AEON Mall - Legok. Perusahaan yakin, kehadiran infrastruktur pendukung akan semakin memberikan nilai tambah bagi para konsumen.

Dengan strategi yang tepat dan pelaksanaan proyek yang efisien, Perusahaan dapat mempertahankan kinerja keuangan yang mengesankan di tahun 2023. Melalui berbagai proyek properti dan infrastruktur yang sedang dikerjakan, Perusahaan terus berupaya meningkatkan kinerja dan memberikan nilai tambah bagi pemegang saham dan seluruh pemangku kepentingan.

KENDALA YANG DIHADAPI **[SEOJK 2.c.1.e]**

Sebagai salah satu pengembang properti terbesar di Indonesia yang telah mengembangkan berbagai proyek properti di berbagai wilayah di Indonesia, Perusahaan telah terbukti menunjukkan daya tahan yang kokoh terhadap segala tantangan yang dihadapi setiap waktu. Tidak terkecuali tahun 2023 yang dipenuhi dengan berbagai tantangan yang dapat dilihat dari aspek makro ekonomi dan industri properti itu sendiri.

Salah satu tantangan makro ekonomi yang dihadapi Perusahaan adalah kenaikan suku bunga BI. BI telah dua kali menaikkan suku bunga acuan atau BI-7 Day Repo Rate (BI7DRR) masing-masing sebanyak 25 basis poin sehingga mencapai level 6% di Oktober 2023.

Dampak kenaikan suku bunga BI terhadap properti perlu menjadi perhatian karena sebagian besar pembelian properti oleh masyarakat cenderung menggunakan cara bayar KPR atau KPA. Dengan demikian, ketika suku bunga KPR atau KPA naik, maka akan mempengaruhi permintaan karena biaya pembelian dan cicilan properti cenderung lebih tinggi.

Untuk menghadapi tantangan ini, Perusahaan pun kian gencar meluncurkan sejumlah strategi pemasaran baik itu di level nasional, maupun secara spesifik ke produk-produk tertentu. Beberapa strategi pemasaran tersebut termasuk Sinar Mas Land Precious untuk mengapresiasi kesetiaan para pelanggan, serta promosi nasional "Smart Move". Adapun, strategi pemasaran yang kami lakukan terbukti berhasil untuk meningkatkan pendapatan prapenjualan seperti yang ditargetkan pada awal tahun.

Bekasi with Water Terrace, Z Living, New Westfield and Tanamas. In Kota Wisata, Cibubur, the Company built Vermont and Front Row Studio Loft.

In the commercial segment, the Company developed Northridge Business Center, Latinos Business District, Campton Shophouse, Greenwich Business Park, The Loop, Delrey Business Townhouse, Enchante Business Park and North Point Two in BSD City. In addition, the Company is also completing the Serpong-Balaraja toll road construction project Section 1B which connects AEON Mall - Legok. The Company believes that the presence of supporting infrastructure will further provide added value for consumers.

With the right strategy and efficient project execution, the Company can maintain its impressive financial performance in 2023. Through various property and infrastructure projects underway, the Company continues to strive to improve performance and provide added value to shareholders and all stakeholders.

CHALLENGES FACED

As one of the largest property developers in Indonesia that has developed various property projects in various regions in Indonesia, the Company has proven to show solid resilience to all challenges faced at all times. The year 2023 is no exception, which is filled with various challenges that are shown through macroeconomic aspects and the property industry itself.

One of the macroeconomic challenges faced by the Company is the increase in BI interest rates. The BI has twice raised its benchmark interest rate or BI-7 Day Repo Rate (BI7DRR) by 25 basis points each to reach 6% in October 2023.

The impact of an increase in the BI rate on property needs to be a concern because most property purchases by the public tend to use the KPR or KPA payment method. Thus, when KPR or KPA interest rates rise, it will affect demand because the cost of buying and paying property instalments tends to be higher.

To address this challenge, the Company has been aggressively launching a number of marketing strategies both at the national level, as well as specifically to certain products. Some of these marketing strategies include Sinar Mas Land Precious to reward loyal customers, as well as the national "Smart Move" promotion. Meanwhile, our marketing strategies have proven to be successful in increasing marketing sales revenue as targeted at the beginning of the year.

Perusahaan juga mewaspadai tantangan dari kondisi ekonomi global. Perekonomian global di tahun 2023 dihadapkan pada pelemahan pertumbuhan ekonomi global, yang diperkirakan akan mencapai 3,0% pada tahun 2023.

Pertumbuhan ekonomi global yang melambat ini disebabkan oleh berbagai faktor, antara lain konflik geopolitik yang menyebabkan gangguan pada rantai pasokan dan kenaikan harga energi dan pangan, pengetatan kebijakan moneter di berbagai negara, terutama di negara-negara maju, serta fenomena El Nino yang menyebabkan gangguan produksi pangan. Hasilnya, tekanan inflasi yang tinggi karena kenaikan harga energi dan pangan.

Di tingkat nasional, permasalahan ekonomi global ini menyebabkan penurunan daya beli masyarakat, peningkatan kemiskinan dan peningkatan risiko krisis ekonomi.

Untuk menghadapi risiko ketidakpastian dari kondisi perekonomian global, Perusahaan pun meningkatkan kehati-hatian dalam ekspansi melalui implementasi yang kuat dari manajemen risiko. Hal ini dilakukan agar Perusahaan tetap memiliki resiliensi untuk menghadapi tantangan-tantangan lain yang muncul di masa yang akan datang.

Beberapa kekuatan fundamental yang dimiliki oleh perusahaan ini antara lain reputasi dan jaringan yang luas, kualitas pembangunan yang tinggi dan inovasi produk yang sesuai dengan kebutuhan pasar.

Kota-kota terintegrasi kami telah meraih penghargaan domestik dan internasional, serta telah menjadi model bagi perkembangan kota-kota baru. Perusahaan juga telah membangun kemitraan dengan berbagai pihak, termasuk pemerintah, perusahaan konstruksi dan tenaga profesional berkualitas.

Dengan modal yang kuat ini, kami masih melihat prospek yang positif dari pasar properti di Indonesia dalam jangka panjang. Hal ini terutama didorong oleh upaya masif dari Pemerintah Indonesia untuk melakukan pemerataan pembangunan infrastruktur di seluruh wilayah Indonesia. Pada tahun 2023 saja, kontribusi sektor infrastruktur dan real estat masih menjadi salah satu mesin pendorong pertumbuhan ekonomi nasional.

Selain itu, keberhasilan Pemerintah menjaga kestabilan pertumbuhan ekonomi akan mendorong peningkatan daya beli masyarakat, yang pada akhirnya akan meningkatkan

The Company is also mindful of the challenges posed by global economic conditions. The global economy in 2023 is faced with weakening global economic growth, which is expected to reach 3.0% in 2023.

The slowing global economic growth was caused by various factors, including geopolitical conflicts that caused disruptions in the supply chain and increases in energy and food prices, tightening monetary policy in various countries, especially in developed countries, also the El Nino phenomenon that caused disruptions in food production. The result is high inflationary pressure due to rising energy and food prices.

At the national level, these global economic problems have led to a decline in people's purchasing power, an increase in poverty and an increased risk of economic crisis.

To deal with the risk of uncertainty from global economic conditions, the Company has also increased prudence in expansion through strong implementation of risk management. This is done in order for the Company to remain resilient to face other challenges that arise in the future.

LONG-TERMS BUSINESS OUTLOOK AND 2024

The Company's reputation as one of the largest property developers in Indonesia has been proven over time. Some of the Company's fundamental strengths include its reputation and extensive network, high quality development and product innovation that meets market needs.

The Company has also been recognized as a leading developer of integrated cities where people can live, work and play in one area. Our integrated cities have won domestic and international awards, plus have become models for the development of new cities. The Company has also built partnerships with various parties, including the government, construction companies and qualified professionals.

With this strong capital, we still see positive prospects for the property market in Indonesia in the long run. This is mainly driven by the massive efforts of the Government of Indonesia to equalize infrastructure development across the country. By 2023 itself, the contribution of the infrastructure and real estate sectors will still be one of the engines driving national economic growth.

In addition, the Government's success in maintaining stable economic growth will encourage an increase in people's purchasing power, which in turn will increase

permintaan properti. Peningkatan pendapatan masyarakat juga akan mendorong masyarakat untuk berinvestasi di properti, baik untuk kebutuhan hunian maupun investasi.

Perkembangan infrastruktur, seperti pembangunan jalan tol dan kereta api, akan meningkatkan aksesibilitas ke berbagai kota di Indonesia, yang juga akan mendorong pertumbuhan permintaan properti. Tidak hanya segmen residensial, pasar properti komersial pun akan turut berkembang seiring dengan terjadi pemerataan ekonomi di daerah-daerah lain.

Khusus di tahun 2024 yang merupakan tahun politik dimana terjadi pemilihan Presiden Republik Indonesia yang baru, kami memperkirakan akan terjadi fluktuasi perekonomian di Tanah Air. Hal yang sama juga akan terjadi di pasar properti dimana akan terjadi fluktuasi permintaan.

Dengan pertimbangan ini, Perusahaan menetapkan target prapenjualan Rp9,5 triliun, pendapatan usaha Rp11,70 triliun dan laba bersih Rp3,23 triliun yang kami yakini dapat tercapai dengan kerja keras. .

Namun, jejak rekam Perusahaan telah menunjukkan adaptabilitas yang kuat dalam menghadapi fluktuasi ekonomi, seperti saat pandemi Covid-19 dan juga krisis-krisis ekonomi global dalam 20 tahun terakhir.

PENERAPAN TATA KELOLA PERUSAHAAN **[SEOJK 2.c.3]**

Dalam menjalankan operasionalnya, Perusahaan terus menerapkan Prinsip GCG secara konsisten. Upaya ini dilakukan dengan menyelaraskan praktik-praktik terbaik GCG ke seluruh lapisan organisasi, termasuk karyawan di berbagai unit usaha dan tingkatan manajemen.

Perusahaan juga menegakkan sistem pelaporan pelanggaran sebagai sarana untuk melaporkan pelanggaran terhadap prinsip GCG atau aturan-aturan yang berlaku, baik di tingkat internal Perusahaan maupun sejalan dengan regulasi pemerintah dan otoritas terkait lainnya. Keberadaan mekanisme ini memberikan jaminan kepada seluruh anggota organisasi bahwa pelanggaran dapat dilaporkan.

Dalam implementasi strategi Perusahaan, Direksi didukung oleh Unit Internal Audit dan Unit Manajemen Risiko dan Keberlanjutan. Sementara itu, Unit Manajemen Risiko dan Keberlanjutan bertugas untuk memastikan efektivitas penerapan manajemen serta menangani isu-isu keberlanjutan yang relevan dengan operasional Perusahaan.

demand for property. An increase in people's income will also encourage people to invest in property, both for residential and investment needs.

Infrastructure development, such as the construction of toll roads and railways, will improve accessibility to various cities in Indonesia, which will also drive growth in property demand. Not only the residential segment, but the commercial property market will also grow along with economic equality in other regions.

Particularly in 2024, a political year with the election of a new President of the Republic of Indonesia, we expect economic fluctuations in the country. The same thing will also happen in the property market where there will be fluctuations in demand.

With this in mind, the Company has set targets of marketing sales of IDR9.50 trillion, revenues of IDR11.70 trillion and net profit of IDR3.23 trillion that we believe can be achieved with hard work.

However, the Company's track record has shown strong adaptability in the face of economic fluctuations, such as during the Covid-19 pandemic as well as global economic crises in the past 20 years.

IMPLEMENTATION OF CORPORATE GOVERNANCE

In carrying out its operations, the Company keeps on applying the GCG principles consistently. This effort is carried out by aligning GCG best practices to all levels of the organization, including employees in various business units and management levels.

GCG socialization is conducted regularly to ensure that every member of the organization understands and is able to apply GCG principles in every aspect of daily operations. This is the Company's commitment to creating an ethical and transparent business environment.

The Company also upholds a whistleblower system as a means to report violations of GCG principles or applicable rules, both at the Company's internal level and in line with government regulations and other relevant authorities. The existence of this mechanism provides assurance to all members of the organization that violations can be reported.

In the implementation of the Company's strategy, the Directors are supported by the Internal Audit Unit and the Risk Management and Sustainability Unit. Internal Audit Unit has a responsibility to provide recommendations to the Directors in relations to the internal process and strategic control process of the Company. Meanwhile, the Risk Management and Sustainability Unit is tasked with ensuring the effectiveness of management implementation and addressing sustainability issues relevant to the Company's operations.

Komitmen Perusahaan terhadap penerapan GCG secara menyeluruh dan transparan, didukung oleh mekanisme pelaporan dan evaluasi internal. Hal ini menjadi landasan kuat untuk memastikan keberlanjutan dan keberhasilan jangka panjang Perusahaan dalam industri properti di Indonesia.

PENILAIAN TERHADAP KINERJA DIREKSI ATAS PENGELOLAAN PERUSAHAAN, TERMASUK PENGAWASAN BOC DALAM PERUMUSAN DAN IMPLEMENTASI STRATEGI

[SEOJK 2.d.1]

Melihat capaian kinerja di tahun 2023, BOC mengapresiasi langkah-langkah strategis yang diambil oleh Direksi, yang membuktikan komitmen mereka untuk menjaga momentum positif pertumbuhan kinerja Perusahaan yang telah berhasil dibangun pada tahun sebelumnya.

Kami menilai Direksi telah berhasil menetapkan sejumlah kebijakan strategis yang terbukti efektif dalam memasarkan produk Perusahaan. Upaya pemasaran yang aktif, baik melalui platform digital maupun non-digital, dengan promosi menarik dan skema pembayaran yang fleksibel, mencerminkan responsivitas Perusahaan terhadap dinamika pasar.

Pengembangan infrastruktur bagi pertumbuhan perusahaan properti terus dilanjutkan oleh Direksi dan keberlanjutan fokus pada pengembangan ini menjadi faktor kunci dalam kesuksesan strategis Perusahaan. Peluncuran berbagai produk baru dengan kisaran harga yang beragam, mencakup segmen residential hingga komersial, menunjukkan ketepatan visi dan ketanggapan Direksi terhadap pemenuhan dinamika kebutuhan pasar.

Hasil keuangan yang membanggakan selama tahun 2023 menjadi bukti keberhasilan implementasi kebijakan-kebijakan tersebut. Kenaikan Pendapatan Usaha sebesar 12,74% pada tahun 2023 memberikan indikasi kuat tentang keberhasilan strategi pemasaran dan diversifikasi produk.

Pencapaian prapenjualan sebesar Rp8,8 triliun, yang telah berhasil mencapai target hingga akhir tahun, menjadi kunci keberhasilan Direksi dalam mengelola dan mengoptimalkan potensi penjualan. Kontribusi utama dari segmen residential dan komersial menunjukkan pemahaman yang mendalam terhadap preferensi konsumen dan peluang di pasar.

Keberhasilan ini juga diperkuat oleh kemampuan Direksi dalam membaca dan merespon pasar dengan cepat. Inovasi terus-menerus dalam pengembangan properti yang terjangkau, dilengkapi dengan fasilitas lengkap dan lokasi strategis, adalah faktor kunci dalam menciptakan hunian yang diminati oleh publik.

Direksi telah melakukan *tender offer* atas Utang Senior 2025 dalam situasi suku bunga meningkat merupakan gambaran kehati-hatian yang patut diapresiasi. Langkah ini telah menurunkan total liabilitas menjadi Rp25,63 triliun sehingga rasio utang terhadap ekuitas menjadi 28,62%.

Di samping fokus pada kinerja keuangan, Direksi juga menunjukkan komitmen terhadap pengembangan proyek besar di berbagai wilayah Indonesia. Proyek-proyek tersebut di segmen residential dan komersial menciptakan nilai tambah bagi perusahaan dan meningkatkan portofolio propertinya.

ASSESSMENT OF THE DIRECTORS' PERFORMANCE IN MANAGING THE COMPANY, INCLUDING THE BOC'S OVERSIGHT OF STRATEGY FORMULATION AND IMPLEMENTATION

Looking at the performance achievements in 2023, the BOC appreciates the strategic steps taken by the Directors, which prove their commitment to maintaining the positive momentum of the Company's performance growth that has been successfully built in the previous year.

We assess that the Directors have successfully established several strategic policies that have proven effective in marketing the Company's products. By doing the active marketing efforts, both through digital and non-digital platforms, with attractive promotions and flexible payment schemes, reflect the Company's responsiveness to the market dynamics.

The Directors remain to develop the infrastructure for the growth of the property company and the continued focus on this development has been a key factor in the Company's strategic success. The launch of various new products with various price ranges, covering residential to commercial segments, demonstrates the accuracy of the Directors' vision and responsiveness to fulfill the dynamics of market needs.

The encouraging financial results for 2023 are evidence of the successful implementation of these policies. The 12.74% increase in Revenues in 2023 provide a strong indication of the success of the marketing strategies and product diversification.

The marketing sales achievement of IDR8.8 trillion, which has successfully achieved the target by the end of the year, is the key to the Directors' success in managing and optimizing sales potential. Major contributions from the residential and commercial segments demonstrate a deep understanding of consumer preferences and opportunities in the market.

This success is also enhanced by the Directors' ability to read and respond to the market quickly. Constant innovation in the development of properties that are affordable, equipped with complete facilities and strategically located are key factors in creating homes that are in demand by the public.

The Directors have made a tender offer for the 2025 Senior Notes in a situation of rising interest rates, which is a prudent move that should be appreciated. This move has reduced total liabilities to IDR25.63 trillion resulting in a debt to equity ratio of 28.62%.

In addition to its focus on financial performance, the Directors also demonstrated its commitment to the development of major projects in various parts of Indonesia. These projects in the residential and commercial segments created added value for the company and enhanced its property portfolio.

BOC ingin menegaskan apresiasi tertinggi kami terhadap Direksi atas pencapaian luar biasa ini. Dengan semangat inovatif dan visi yang jelas, kami yakin bahwa Perusahaan akan terus berkembang dan memberikan kontribusi positif yang signifikan bagi seluruh pemangku kepentingan dalam jangka panjang.

PANDANGAN ATAS PROSPEK USAHA JANGKA PANJANG DAN TAHUN 2024 **[SEOJK 2.d.2]**

Dalam kesempatan ini, BOC ingin menyampaikan pandangan mengenai prospek usaha jangka panjang dan tahun 2024 dengan mempertimbangkan kekuatan fundamental Perusahaan dan dinamika pasar terkini.

Dalam jangka panjang, potensi pasar perumahan Indonesia masih besar. Menurut data BPS melalui Susenas Maret 2022, sekitar 16,01 persen rumah tangga di Indonesia masih belum memiliki rumah sendiri. Lebih lanjut, proyeksi BPS juga menunjukkan bahwa hingga 2045, rata-rata pertumbuhan rumah tangga mencapai sebesar 660.000 lebih per tahun dan mereka membutuhkan rumah.

Selain itu, momentum positif pertumbuhan ekonomi yang dibarengi dengan visi Pemerintah Indonesia untuk pemeratakan pembangunan infrastruktur di berbagai daerah. Hal ini akan membuka pusat pertumbuhan ekonomi baru dalam jangka panjang.

Adapun, sektor properti diramal masih akan lesu pada awal 2024 yang disebabkan oleh kenaikan suku bunga acuan BI sejak tahun 2023 akibat ketidakpastian perekonomian global. Selain itu, permintaan properti pada tahun 2024 juga akan berfluktuasi karena momentum pemilihan umum.

Meskipun sektor properti diproyeksikan akan lesu pada awal 2024, permintaan akan kembali membaik setelah periode politik selesai. Kami meyakini bahwa dalam jangka panjang, industri properti di Indonesia masih begitu menjanjikan. Oleh karena itu, Perusahaan perlu meningkatkan kehati-hatian dalam menjalankan bisnis di tahun 2024 dengan tetap fokus pada ekspansi jangka panjang.

Seperti kita ketahui bersama, reputasi positif dan jaringan luas, kualitas pembangunan yang tinggi dan inovasi produk telah menjadi pilar keberhasilan Perusahaan. Dengan keberhasilan sebagai pengembang kota terpadu, Perusahaan telah membuktikan diri sebagai model bagi perkembangan kota-kota baru di Indonesia.

Dengan kekuatan ini, BOC optimistis bahwa prospek bisnis Perusahaan masih positif dalam jangka panjang. BOC juga optimis target yang telah ditetapkan oleh

The BOC would like to emphasize our highest appreciation to the Directors for this outstanding achievement. With its innovative spirit and clear vision, we are confident that the Company will continue to grow and make significant positive contributions to all stakeholders in the long run.

OUTLOOKS ON LONG-TERM BUSINESS PROSPECTS AND 2024

The BOC would like to take this opportunity to express its views on the long-term business outlook and 2024 by considering the Company's fundamental strengths and current market dynamics.

In the long term, the potential of Indonesia's housing market is still large. According to data from the BPS via Susenas, March 2022, approximately 16.01 percent of households in Indonesia still do not own their own home. Furthermore, BPS projections also show that by 2045, the average household growth will reach more than 660,000 per year and they will need a house.

In addition, the positive momentum of economic growth is coupled with the Indonesian Government's vision to equalize infrastructure development in various regions. This will open up new centers of economic growth in the long run.

Meanwhile, the property sector is predicted to remain sluggish in early 2024 due to the increase in BI benchmark interest rate since 2023 due to global economic uncertainty. In addition, property demand in 2024 will also fluctuate due to the momentum of the general election.

Although the property sector is projected to be sluggish in early 2024, demand will rebound once the political period is over. We believe that in the long run, the property industry in Indonesia is still very promising. Therefore, the Company needs to increase its prudence in conducting business in 2024 while focusing on long-term expansion.

As we all know, our positive reputation and extensive network, high quality of development and product innovation have been the pillars of the Company's success. With its success as an integrated township developer, the Company has established itself as a model for the development of new townships in Indonesia.

With this strength, the BOC is optimistic that the Company's business prospects are still positive in the long term. The BOC is also optimistic that the targets set

Direksi pada tahun 2024 akan tercapai. Perusahaan telah menetapkan target prapenjualan sebesar Rp9,50 triliun, target Pendapatan Usaha sebesar Rp11,70 triliun dan Laba Bersih Rp3,23 triliun pada tahun 2024.

Sejalan dengan visi Perusahaan, BOC bersama manajemen berkomitmen untuk terus meningkatkan kualitas produk, menjaga keberlanjutan dan memanfaatkan peluang pertumbuhan. Kami meyakini bahwa Perusahaan dengan reputasi yang solid dan fondasi yang kuat, akan tetap menjadi pemimpin di industri properti Indonesia.

PANDANGAN ATAS PENERAPAN TATA KELOLA **[SEOJK 2.d.3]**

Perusahaan berkomitmen penuh untuk menjalankan Tata Kelola Perusahaan yang Baik (GCG) secara disiplin di seluruh aspek bisnis. Upaya ini tercermin dalam kepatuhan terhadap peraturan yang berlaku, akuntabilitas dalam pengambilan keputusan dan transparansi dalam pengelolaan Perusahaan.

Penerapan GCG tidak hanya mencakup operasional harian, tetapi juga terwujud dalam perumusan kebijakan strategis dan pelaksanaannya. BOC memainkan peran utama dalam mengawasi implementasi GCG dalam pengelolaan Perusahaan, dengan rapat gabungan sepanjang tahun 2023 dilakukan sebanyak 4 (empat) kali untuk memastikan keterlibatan aktif BOC dalam pengawasan GCG.

Dalam melaksanakan GCG, BOC diperkuat oleh Komite Audit dan Komite Nominasi dan Remunerasi. Komite Audit berperan krusial dalam mendukung fungsi pengawasan, sementara Komite Nominasi dan Remunerasi memberikan masukan berharga terhadap penilaian kinerja Direksi dan BOC.

Berdasarkan evaluasi yang kami lakukan, dapat disimpulkan bahwa manajemen dan seluruh karyawan telah dengan disiplin menerapkan GCG, sesuai dengan regulasi OJK, BEI dan peraturan lainnya.

Meskipun telah mencapai tingkat penerapan GCG yang baik, kami berkomitmen untuk terus meningkatkannya. Langkah ini diarahkan untuk memastikan pertumbuhan dan perkembangan berkelanjutan Perusahaan.

Salah satu langkah penting adalah meningkatkan kesadaran dan pemahaman karyawan mengenai pentingnya GCG melalui berbagai kegiatan seperti sosialisasi, pelatihan dan diskusi. Selain itu, Perusahaan akan melakukan evaluasi berkala terhadap penerapan GCG, dengan tujuan mengidentifikasi area perbaikan dan meningkatkan efektivitas penerapan GCG.

by the Directors in 2024 will be achieved Perusahaan telah menetapkan target prapenjualan sebesar Rp9,50 triliun, target Pendapatan Usaha sebesar Rp11,70 triliun dan Laba Bersih Rp3,23 triliun pada tahun 2024.

In line with the Company's vision, the BOC and management are committed to continuing to improve product quality, maintaining sustainability and capitalizing on growth opportunities. We believe that the Company, with its solid reputation and strong foundation, will remain a leader in the Indonesian property industry.

VIEWS ON THE IMPLEMENTATION OF GOVERNANCE

The Company is fully committed to implementing GCG in a disciplined manner in all aspects of the business. This effort is reflected in compliance with applicable regulations, accountability in decision making and transparency in the management of the Company.

The implementation of GCG not only covers daily operations, but also manifests in the formulation of strategic policies and their implementation. The BOC plays a major role in overseeing the implementation of GCG in the management of the Company, with joint meetings throughout 2023 conducted 4 (four) times to ensure the active involvement of the BOC in GCG oversight.

In implementing the GCG, the BOC is strengthened by the Audit Committee and the Nomination and Remuneration Committee (NRC). The Audit Committee plays a crucial role in supporting the supervisory function, while the NRC provides valuable input into the performance assessment of the Directors and BOC.

Based on our evaluation, it can be concluded that the management and all employees have been disciplined in implementing GCG, in accordance with OJK, BEI and other regulations.

Although we have achieved a good level of GCG implementation, we are committed to continuously improving it. This step is geared towards ensuring the Company's sustainable growth and development.

One important step is to increase employees' awareness and understanding of the importance of GCG through various activities such as socialization, training and discussions. In addition, the Company will conduct periodic evaluations of GCG implementation, with the purpose of identifying areas of improvement and increasing the effectiveness of GCG implementation.

Kami yakin bahwa dengan penerapan GCG yang optimal, Perusahaan kami dapat menjadi entitas yang lebih transparan, akuntabel dan bertanggung jawab. Dampak positif dari hal ini akan dirasakan oleh Perusahaan, pemangku kepentingan dan masyarakat secara keseluruhan.

APRESIASI DAN PENUTUP

Dalam Laporan Tahunan 2023 ini, BOC ingin menyampaikan ungkapan apresiasi yang tulus kepada berbagai pihak yang telah berperan penting dalam kesuksesan Perusahaan selama tahun tersebut.

Pertama-tama, kami ingin menghaturkan apresiasi khusus kepada Direksi atas kinerja luar biasa mereka dalam mengemban tanggung jawabnya. Dedikasi, kepemimpinan dan strategi yang cermat dari Direksi telah menjadi pilar utama dalam mencapai pencapaian positif Perusahaan pada tahun 2023.

Tak kalah penting, penghargaan juga ditujukan kepada seluruh karyawan Perusahaan. Keberhasilan ini tidak mungkin tercapai tanpa kerja keras, dedikasi dan profesionalisme mereka. Karyawan kami telah menjadi tulang punggung dalam menjalankan operasional sehari-hari dengan standar kualitas tinggi.

Kami juga ingin menyampaikan rasa terima kasih kepada para pemegang saham yang telah mempercayai dan mendukung Perusahaan. Kepercayaan ini menjadi dorongan penting bagi kami dalam mengambil langkah-langkah strategis dan berinovasi.

BOC juga menghaturkan apresiasi kepada seluruh pemangku kepentingan, termasuk pelanggan setia dan mitra bisnis. Kolaborasi yang kuat dan dukungan yang berkelanjutan dari semua pihak telah membantu mengukir kesuksesan Perusahaan. Terima kasih atas kemitraan yang baik dan kami berharap dapat terus membangun hubungan yang positif di masa depan.

We believe that with optimal GCG implementation, our Company can become a more transparent, accountable and responsible entity. The positive impact of this will be felt by the Company, stakeholders and society as a whole.

APPRECIATION AND CLOSING

In this 2023 Annual Report, the BOC would like to express its sincere appreciation to the various parties who have been instrumental in the Company's success during the year.

First of all, we would like to express our special appreciation to the Directors for their outstanding performance in carrying out their responsibilities. The Directors' dedication, leadership and thoughtful strategies have been key pillars in achieving the Company's positive milestones in 2023.

Segmen Manajemen Aset [SEOJK 2.f.1.a]

Asset Management Segment

Perusahaan mengelola aset-aset properti yang menghasilkan pendapatan berulang. Dua kategori aset yang dikelola Perusahaan adalah perkantoran dan ITC.

The Company manages property assets that generate recurring income. The two categories of assets managed by the Company are offices and ITC.

Pada tahun ini, permintaan ruang perkantoran masih cenderung stagnan dengan tingkat sewa yang masih tertekan. Berdasarkan data JLL pada triwulan ketiga, kebutuhan ruang kantor mengarah kepada unit-unit kecil dengan pelayanan dan kualitas premium. Perkantoran grade A masih mampu mempertahankan tingkat okupansi namun kami tetap waspada dengan persaingan yang ketat karena besarnya pasokan yang ada.

Salah satu *highlight* dari gedung-gedung perkantoran Perusahaan adalah sertifikasi *green building*, khususnya GOP di BSD City.

Tahun ini, Perusahaan menggandeng dua investor Jepang untuk mengembangkan *Office Portfolio Partnership* di beberapa lokasi strategis di Jakarta, dimulai dengan Sinarmas MSIG Tower, Bakrie Tower dan Luminary Tower (*under-construction*) yang seluruhnya berlokasi di Jakarta CBD Area. Di bulan Januari, kedua investor asal Jepang tersebut telah bersepakat untuk secara bersama-sama memiliki 25% saham PT Duta Cakra Pesona (DCP) – sebuah Entitas Anak - dan sisanya dimiliki oleh Perusahaan. Kerjasama ini diharapkan akan meningkatkan efisiensi penggunaan energi gedung, memperbaiki kinerja tim operasional, alih-teknologi dan pengetahuan khususnya dalam pengembangan serta pengelolaan gedung pintar (*smart building*).

Berikut adalah proyek-proyek perkantoran yang dikelola oleh Perusahaan dan Entitas Anak beserta tingkat huniannya:

This year, the demand for office space has shown a tendency to remain stagnant, keeping rental rates under pressure. According to data from JLL in the third quarter, there is a preference for smaller office units offering premium services and high quality. Grade A office spaces continue to uphold their occupancy rates, yet we must stay vigilant due to intense competition resulting from the ample supply in the market.

One notable highlight of the Company's office buildings is the green building certification, particularly the GOP in BSD City.

This year, the Company engaged in a collaborative effort with two Japanese investors to establish an Office Portfolio Partnership encompassing strategic locations in Jakarta. The venture commenced with the Sinarmas MSIG Tower, Bakrie Tower and the Luminary Tower (under-construction), situated within the Jakarta CBD Area. In January, the two Japanese investors mutually acquired a 25% stake in PT Duta Cakra Pesona (DCP), a Subsidiary, with the remaining shares retained by the Company. This partnership aims to enhance energy efficiency within buildings, elevate operational team effectiveness and facilitate the exchange of technology and knowledge, particularly in the scope of smart building development and management.

The Company and its Subsidiaries oversee the following office projects, along with their respective occupancy rates:

Tingkat Okupansi Gedung Perkantoran

Office Building Occupancy Rate

Perusahaan bersama dengan Entitas Anak juga mengembangkan ITC, sebuah *brand* yang telah dikenal sejak 1989.

The Company along with its Subsidiary also fosters the development of ITC, a well-established brand since 1989.

Perusahaan melakukan berbagai inovasi untuk meningkatkan *foot traffic* ke ITC. Upaya-upaya ini berdampak positif kepada *volume* penjualan para *tenant*, terbukti dari tingkat pergantian *tenant* yang relatif rendah. Salah satu inovasi di antaranya adalah menyediakan pusat pelayanan publik terpadu di ITC Cempaka Mas dan ITC Roxy Mas. Tahun ini ITC Cempaka Mas menjalin kerja sama dengan Hapimart, perusahaan ritel asal Cina yang menyediakan beragam varian produk kebutuhan sehari-hari mulai dari groseri, produk segar, hingga beraneka macam kebutuhan rumah tangga lainnya. Hapimart akan menempati area seluas 11.000 m² di *lower ground* ITC Cempaka Mas.

The Company has implemented several innovations to enhance foot traffic at ITC. These initiatives have significantly boosted the sales performance of tenants, as indicated by the notably low turnover rate among the tenants. Noteworthy among these innovations is the establishment of a service center at ITC Cempaka Mas in collaboration with Hapimart, a Chinese retail company offering a wide array of daily essentials, including groceries, fresh produce, and various household items. Hapimart is set to occupy an 11,000 m² area on the lower ground floor of ITC Cempaka Mas.

Kami mengembangkan beberapa aset ritel yang luas dengan konsep-konsep unik yang disesuaikan dengan pasar yang dilayani. AEON Mall Southgate Jakarta menempati lahan sewa seluas 47.586 m². AEON Mall ini adalah mal pertama bebas sampah dengan menerapkan 6R, yaitu *reduce, reuse, recycle, repair, refuse* dan *rethink*.

Beberapa mal kami juga dikembangkan untuk mendekati ke alam. The Breeze di BSD City merupakan *open mall* yang mengintegrasikan aspek alami sungai Cisadane ke dalamnya. Qbig di BSD City juga menarik karena keluasan ruang dan keterbukaannya.

Pada tahun ini, kami memulai perluasan DP Mall di Semarang. Peletakan batu pertama dilakukan pada 7 Mei 2023 dan dihadiri oleh Walikota Semarang. DP Mall yang dibangun di atas lahan seluas 3 hektar akan menjadi *lifestyle* mall pertama dan terdepan dengan konsep ruang terbuka hijau. Sistem Manajemen Risiko

Risk Management System

[SEOJK 2.g.12]

Sejak 1 Juli 2013, Perusahaan telah menerapkan Kerangka Manajemen Risiko Perusahaan (ERM) yang telah diperbaharui beberapa kali dengan pembaharuan terakhir pada 26 September 2021. Kerangka ERM bertujuan untuk melindungi kepentingan semua pemangku kepentingan. Kerangka ERM ini secara berkesinambungan dievaluasi penerapan dan efektivitasnya.

Since July 1st, 2013, the company has implemented the Corporate Risk Management Framework (ERM), which has undergone multiple updates, with the latest revision dated September 26th, 2021. This framework is dedicated to safeguarding all stakeholders through comprehensive and systematic risk management practices. Regular assessments are conducted to evaluate both the execution and efficacy of the framework.

Sejak 2021, Perusahaan makin sadar akan dampaknya yang signifikan dan makin luas kepada makin banyak pemangku kepentingan. Karena itu, ERM diperbaharui sehingga mampu memperluas lingkup penerapan manajemen risiko yang mencakup isu-isu terkait keberlanjutan Perusahaan, termasuk di dalamnya risiko-risiko terkait Lingkungan, Sosial dan Tata Kelola (ESG), serta perubahan iklim. Risiko-risiko terkait ESG diintegrasikan ke dalam kategori risiko yang telah ada dan tidak membuat kategori risiko yang terpisah.

Kami menerapkan prinsip-prinsip ERM berstandar internasional yang disesuaikan dengan lingkungan bisnis dan budaya Perusahaan, yaitu sebagai berikut:

- a. ERM merupakan bagian tidak terpisahkan dari seluruh proses dalam organisasi dan akan dilekatkan pada semua aktivitas, proses dan sistem;
- b. ERM merupakan bagian tidak terpisahkan dari proses pengambilan keputusan;
- c. ERM didasarkan pada informasi risiko yang tersedia;
- d. ERM merupakan proses yang dinamis, dapat diulang (iteratif), responsif terhadap perubahan dan dapat disesuaikan;
- e. ERM disesuaikan dan mendukung tujuan strategis dan bisnis;
- f. ERM merupakan proses yang digerakkan oleh keterlibatan sumber daya manusia dan menciptakan tanggung jawab secara menyeluruh dari semua pihak;
- g. ERM merupakan proses yang senantiasa berevolusi dan memerlukan pengembangan yang berkesinambungan.

Implementasi Kerangka ERM secara spesifik bertujuan mencapai hal berikut:

- a. Memfasilitasi identifikasi dari risiko bisnis dan potensi dampak yang mungkin terjadi, baik positif maupun negatif, dalam pencapaian target bisnis Perusahaan;
- b. Mengembangkan dan mengilhami budaya risiko Perusahaan;
- c. Mendorong pengambilan risiko yang sesuai dengan ekspektasi Perusahaan;
- d. Mendukung pengambilan keputusan berbasis risiko;
- e. Menetapkan peran dan tanggung jawab ERM secara jelas dalam Perusahaan;
- f. Mendorong informasi terkait risiko Perusahaan yang tepat waktu dan akurat; dan
- g. Meningkatkan kesiapan Perusahaan dalam menghadapi risiko-risiko yang mungkin terjadi.

Since 2021, the Company has recognized its escalating influence on an expanding array of stakeholders. Consequently, the ERM framework has undergone enhancements to broaden the spectrum of risk management practices and now encompasses issues related to the Company's sustainability, incorporating risks associated with Environmental, Social and Governance (ESG), alongside climate change. Notably, ESG-related risks have been integrated within the current risk categories rather than being established as a distinct category.

We implement globally recognized ERM principles tailored to the Company's specific business environment and culture, namely:

- a. ERM constitutes a integral part across all organizational processes, ensuring its integration into every activity, procedure, and system;*
- b. ERM is an integral part of the decision-making processes;*
- c. ERM is based on available risk information;*
- d. ERM is a dynamic process, iterative, responsive to change and adaptable;*
- e. ERM is customized and supports strategic and business goals;*
- f. ERM is a process driven by the involvement of human resources and fostering accountability across all involved parties;*
- g. ERM is ongoing process requires continual development.*

The application of the ERM Framework specifically aims to accomplish the following:

- a. Facilitate the identification of business risks and assess their potential impact, whether positive or negative, in achieving the Company's strategic goals;*
- b. Develop and instill a corporate risk culture within the Company;*
- c. Encourage desired risk taking behaviours;*
- d. Promote the adoption of risk-based decision making;*
- e. Define distinct roles and responsibilities for ERM across the Company;*
- f. Promote timely and accurate Company-related risk information; and*
- g. Enhance the Company's readiness to manage risks.*
